

ELEMENTALS OF LIFE

~a living, breathing 501(c)3 non-profit~

This is not a traditional fund raising letter. This is an invitation to invest in your dreams. Co-create with us the most magnificent Earth we can all live with and on. To do this, we all must give heart, joy, money and our most enlivening visions. Send them to us now and we will co-create our new Earth home now. Welcome. Please read on.

*“It is our time. It is the season of all beings who insist on offering peace everywhere, at once.”**

(*All quotes are words offered from the hearts of the Shiva Lingams in Peace Across the Planet ceremonies.)

We live in the most amazing moment in the history of humankind and the story of the Earth Mother, now. Four times before in our evolutionary journey here, we came to a time when most of our population, and much of life on this planet, had to be destroyed by flood, ice or other catastrophe in order for us to move into a new paradigm. We live in one of those moments now, but this time we do not have to be destroyed to evolve (although that scenario is still quite possible). We are invited now to bring our present paradigm with us as we step joyfully into the new world that we are co-creating each moment. It is no longer about surviving, it is about THRIVING! The Earth Mother and all the Beings here with us: Plant, Animal and Mineral, lovingly support us on this magnificent journey as we step beyond the paradigm of separation and into glorious union, with all of life. As a member of the Board of Elementals of Life, I invite you to join with us in our living practice of “Peace Across the Planet,” which supports this glorious transformation through the service of the Mineral Kingdom.

“All the Lingams standing in formation across the planet now– a Crystalline Grid – bring exponential respect, love and peace across the meridians of the planet through the heart of the Earth Mother, through the core of all beings who stand in love – even those who don’t know it out loud yet – for all beings are Love at the core.”

In June, 2008, through the open-hearted listening of Marilyn and Thomas Twintrees with All-of-Life, humanity has been offered exponential support for our evolution into the new paradigm, now: “Peace Across the Planet.” It is extended to us from the very heart of the Earth Mother through sacred stones called Shiva Lingams and the “Yes” of the willing humans joining with them. Shivas have been recognized as sacred beings for millennia. They were (and still are) respectfully harvested from the Narmada River in India, in annual sacred rituals (although the River has now been dammed for hydro-electric power and we may not see more of them come out in the future). Traditionally, they were placed in temples by the monks who hand harvested and hand polished them, to offer the profound peace and creativity they embody for the benefit of the communities.

In offering “Peace Across the Planet” to us now, the largest of these Shivas are asking to be stood up upon the Earth where a person is willing to step forward as an Intent Holder. They join with a particular Shiva (which is always joined with ALL the Shivas in the Crystalline Grid), holding the intent of Peace and healing, and calling together community to gather in ongoing sacred ceremonies that are guided by the words offered from the Shivas themselves and the open hearts and breath of the participating humans. Visions of Peace offered from the hearts of those present are rooted into the core energy blueprint of the Earth, the Crystalline Grid, by the Shivas (like acupuncture needles in a human meridian), for manifestation on the planet, now. These ceremonies occur simultaneously in all locations (although each community also has accessory gatherings at varying times throughout the month to complement the simultaneous ceremonies). Right now there are seven such communities gathering regularly joyfully celebrating and supporting ongoing evolution as a people and a planet of Peace.

“We are evolving. We are growing peace within and from us. We are growing it everywhere, at once.”

I (Lynn Asch) am the Intent Holder for the “Peace Across the Planet” Project here in Silver City, New Mexico: My vision of a peaceful world begins in my own heart and expresses itself in the daily practices of my life – in my words and actions in

all my relationships. I am Peace when I embody the trust and willingness to open my heart in love for my self first and then those around me in the moment. Living in loving Union with all of life in this way, I will do no harm, as my focus and then my actions come from the Union in my heart instead of the fear that may be all around. It's the practice of my life, and I'm a work-in-progress within it, celebrating the joyful moments of being in Union, and constantly and as gently as I allow myself, returning to that Union when I stray. I support myself in this by living in a pocket of private land within the Gila National Forest, where the beings most immediately around me – Trees, Animals and Stones – always hold the space of Union, constantly inviting me to join them. I focus on living respectfully with them and honoring the gifts offered by the Earth Mother by being off the electric and phone grids in a home designed co-creatively with the Elementals (the Spirit Beings who manifest life on Earth through Earth, Fire, Air, Water and Ethers), living simply, and using resources efficiently.

“Humans can now join with all the other kingdoms of life upon our Earth Mother for peace as our reality and our Home.”

Elementals of Life, the non-profit sponsoring “Peace Across the Planet,” has Respect for All Life as its most active intent and practice. It is a living and breathing entity, as it expresses and manifests this intent through its actions here on the planet – just as we humans do. Joyfully birthed in 1996 as a co-creation of Marilyn and Tohmas Twintrees with their Spirits, Elementals of Life sponsored yearly Festivals of the Little People™ in the late 90's, where people celebrated in music, dance, song and story, the grateful union of humans with the Elementals living here on the planet with us all. The two CD's produced following the Festivals offer the words and ways of Spirit as celebrated in the Festivals. EOL also sponsored a Peace Concert in Tucson, Arizona, in 1997, where people joined together in sacred ceremony with the harmonious sounds of crystal bowls, in joyous manifestation of the new paradigm. “Peace Across the Planet,” EOL's latest offering, invites we humans to align with the other Kingdoms on the planet to manifest our most heartfelt desires for a peaceful world, now.

“This is our moment.

Our love flows the deepest rivers for all – even for those who think that they can't feel it, believe it, trust it.”

In my life, when I sometimes doubt and wonder how much of a difference my choices actually make in the wider world, I'm supported by reminding myself of this profound equation as it was offered to Marilyn and Tohmas from the Elementals at the base of Mt. Fuji in Japan in October 2007: *One person opening their heart and choosing love is more powerful than 100,000 people choosing fear and violence.* That equation was updated by the Elementals in August 2008 to: *ONE person in their heart has a greater effect than 200,000 living in fear and violence.* We are co-creating the world we live in every moment, with every choice we make!

I personally now invite you to join us as we continue to grow and manifest “Peace Across the Planet.” We invite you to send us your vision of Peace in written words. What does it look and feel like to you? Make it a simple, clear Statement of Intent that we can further offer to the Shivas in the Crystalline Grid to hold at all times, even when we forget or say we don't know how. We are gathering these Visions at the ceremonies now, and also in countertop displays at local businesses in the Shiva communities, and through our website www.peaceacrosstheplanet.org. They are also passed on periodically to the Dalai Lama, President Obama, and others, as inspirational support for their work. Mostly they are freely offered to the Shivas and the Crystalline Grid and our own internal Sacred Witnesses as practice.

I also personally and specifically invite you to join with this energy by donating Money as energy, now, to support “Peace Across the Planet.” This Project was born from and is nurtured by the trust and willingness of a group of initial donors who loaned funds to bring this first group of Shivas from India to the seven existing communities where they now live, and by the Intent Holders, who in calling the Shivas to them, commit to raising the funds to pay back these loans. Each Intent Holder raises funds first for the Shiva in their own community, and then raises ongoing funds for the Project as a whole, in expanding to more communities worldwide, in funding the video we're producing about the Project and the school we're co-creating to support young people in manifesting the peaceful world they envision as the everyday reality of their lives, now.

Our lifestyles are simple and as green and free as possible. We invest all the resources offered to us back into the Project itself to re-pay loans and expenses incurred for the original group of Shivas; by creating projects such as t-shirts and CD's to sell to raise funds; and also to purchase more Shivas and bring them to new joining communities.

This is our joy. It is our service. It is our respect for our own life force energy in doing this work, and for the energy that Money represents respectfully, and for all the other energies of time and effort so generously donated by willing humans, and our Peace visions, come together now as the manifested image/reality of Peace on this planet. This is not a supposed future. This is right now. It is active. It is from the heart. We invite you to join us in this grand Earth adventure, now, as you freely choose.

We choose to live inspired and spectacular lives, NOW! thriving in respectful relationship with all the Kingdoms here on the Earth Mother: Plant, Animal, Mineral & Human, in PEACE.

*“As we breathe the fullness of our joined hearts,
the peace spills over the edges of all time and space.
It overflows and keeps growing
as it encircles the entire Earth
over and over
and over
again.”*

Thank you,

Lynn Asch
Marilyn & Tohmas Twintrees

**Our current financial responsibility to pay off our loans for the existing Shivas already placed is about \$60,000.00.
We have the immediate potential to at least double the current number of Shivas placed if we so choose.
That would require approximately another \$60,000.00 to bring them here from India.**

Detailed financial information for Peace Across the Planet is available upon request – just ask!
Federal ID Number of Elementals of Life is 41-1867766

Every dollar, actually every cent, every single donation of any kind, is vital to us and builds on the wave pattern of trust and respect already in place. Do not underestimate nor put into comparison any volunteered donation, as they ALL are manifestations of willingness and an open heart. If you remember the equation told of in the above letter, you can see and feel the importance of every prosperous penny that comes our way. We welcome it all! Thank you again for investing your life force energy in opening your heart to this letter.

We send all our respect and support.
